

# MYELOMA explained

## Understanding Your Treatment

Receiving the right treatment(s) for multiple myeloma is crucial. Use the below suggested questions to help guide a conversation with your oncologist about your options and determine what might be best for you.

What treatments do you recommend for me, and why?

How often and where will I receive this treatment?

How will I know if this treatment is working? How will I know if it's not?

How long will I be on this treatment?

What are the possible side effects and can they be prevented or managed?

How will this treatment impact my day-to-day life?

Where can I learn more?

What are my other options?
