Understanding Your Treatment

Receiving the right treatment(s) for multiple myeloma is crucial. Use the below suggested questions to help guide a conversation with your oncologist about your options and determine what might be best for you.

- What treatments do you recommend for me, and why?
- How often and where will I receive this treatment?
- How will I know if this treatment is working? How will I know if it’s not?
- How long will I be on this treatment?
- What are the possible side effects and can they be prevented or managed?
- How will this treatment impact my day-to-day life?
- Where can I learn more?
- What are my other options?
